

To make one, you just need four orange pipe cleaners, a brown pipe cleaner, a green pipe cleaner, and orange pony beads. We got our pony beads from [craftprojectideas.com](http://craftprojectideas.com) (I was given the beads for free. As always, that does not affect the content of this post or my opinion in any way). They have so many great kid craft ideas and supplies!

## Kiddie Crafts – Pony Bead Pumpkins

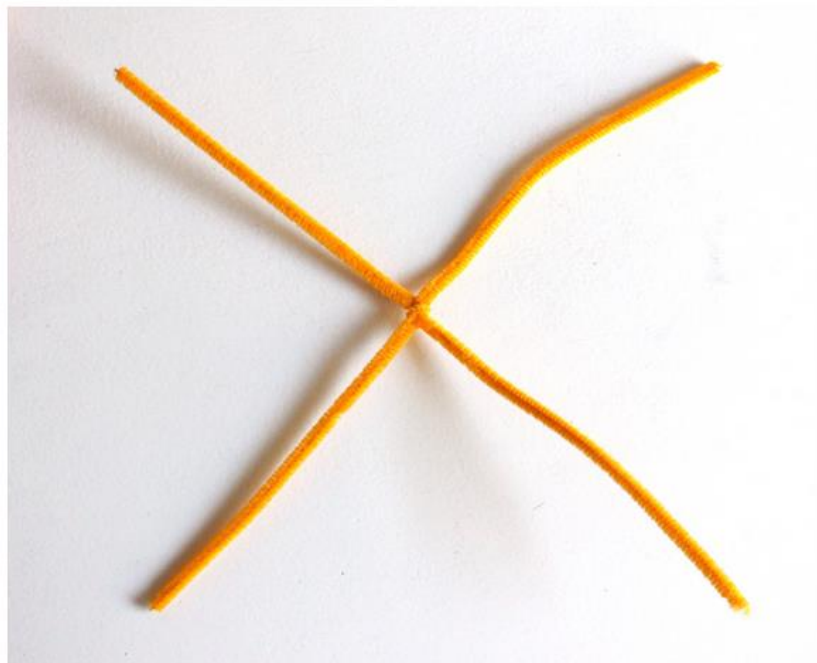

September 5, 2013 • 28 Comments

I've got a fun, fall or Halloween kid craft to share with you today... pony bead pumpkins! They were so much fun for the kids to make. They love stringing beads!

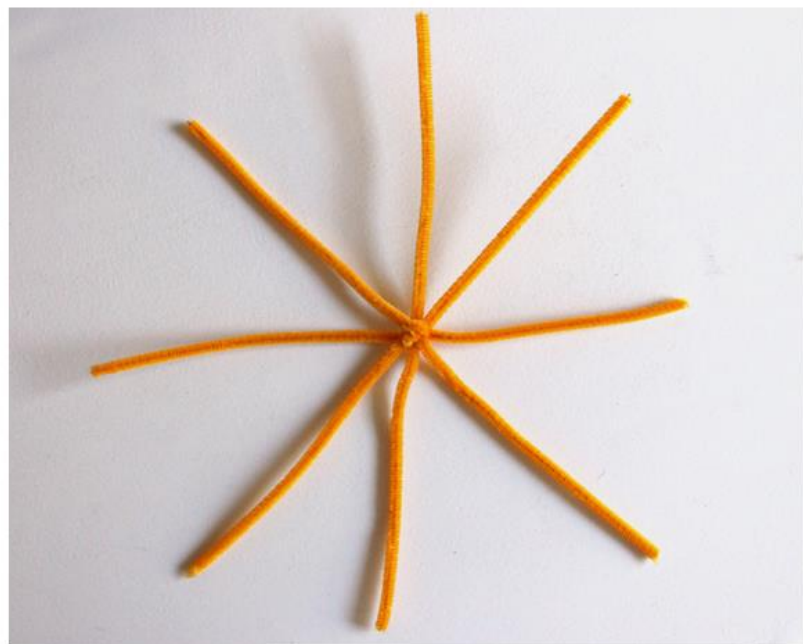

To make one, you just need four orange pipe cleaners, a brown pipe cleaner, a green pipe cleaner, and orange pony beads. We got our pony beads from [craftprojectideas.com](http://craftprojectideas.com) (I was given the beads for free. As always, that does not affect the content of this post or my opinion in any way). They have so many great kid craft ideas and supplies!

to do this on their own. First take two pipe cleaners and make an "X". Twist them around each other in the middle.

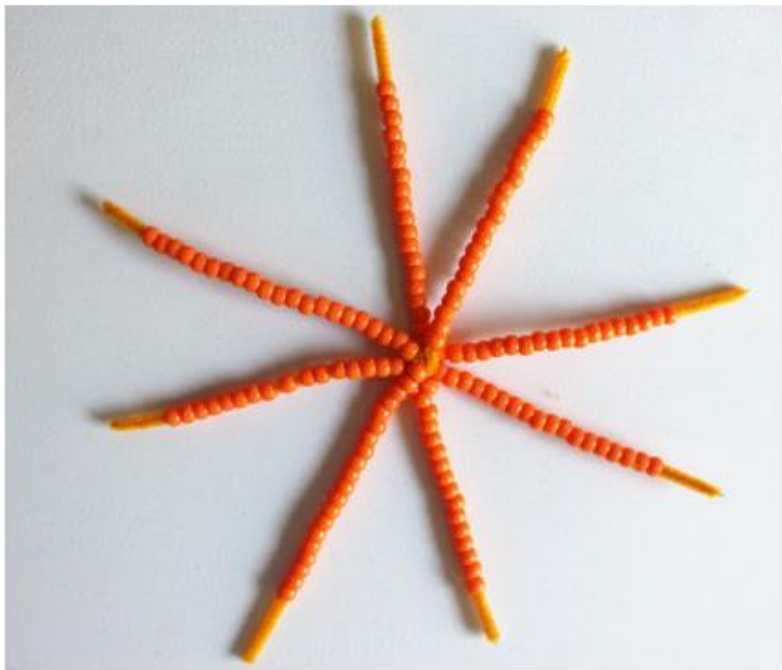

Attach the other two pipe cleaners in the same manner. It should look like this when you are done.

Leave about an inch on the end of each one without beads on it.

Bring all of the ends together and twist them to form the pumpkin's stem.

Wrap your brown pipe cleaner around the stem and cut off the excess.

Wrap your green pipe cleaner around the base of the stem to make the vines. Cut off the excess.

Curl the ends of the green pipe cleaner with a pen or pencil.

Curl the ends of the green pipe cleaner with a pen or pencil.

And you've got yourself a pumpkin!
