

And here is the finished product... Frosty and his family, our creative Christmas ornament craft idea...lit up and ready to adorn our Christmas tree! This one is so easy I made a whole Snowman family.. one for each of the kids and grandkids too! With a permanent marker, note the year on the back!

Christmas Ornament Craft Instructions

What you need to make this adorable Christmas craft:

Small tealight.. make sure they are flat on top, some have indents around where the bulb is.

Mini 1/2" pom-poms.. all the craft stores have them in Christmas colors this time of year

Chenille pipe cleaners.. again choose the Christmas colors

Final ingredients: Ribbon, a glue gun, a black Sharpie or paint pen and Christmas tree hanger or piece of thin cord

How to make this light up Christmas ornament craft:

Cut a piece of pipe cleaner 2 1/4" long. Center it on the top of the tea light and glue only the ends to the sides of the tealight. You want to be able to thread an ornament hanger or piece of cord under the top of the earmuff! Next glue a pom pom right below the ends of the pipe cleaners. Make sure the glue is right next to that pipe cleaner so that the pom pom covers it.

Take a small 2 inch piece of ribbon, I love wired ribbon and narrower is better. Tie it in a knot and glue at the knot to the base of the tealight.

Using the Sharpie permanent marker or black paint pen, make the snowman's eyes and smile. You could also use those little googly eyes on this Christmas craft.

YOU ARE DONE.. just push the switch on the back of the tealight and your snowman's nose lights up! Just way too cute!
